BALTIMORE MD 21210-3276

Mr. Pyeron,

In our December 31, 2002 response to your request for information under the Freedom of Information Act, we stated that the information that you requested was available in the form of the TIGER/ZIP+4 product. As you have subsequently responded, the specific information that you request is not available in a single product. To provide the information that you request, we will have to merge TIGER/ZIP+4 and ZIP+4 product data to provide a single dataset containing the requisite address and geographic information.

We currently estimate that the file will contain approximately 33 million records. The uncompressed file size will be around 3 gigabytes. It will contain records only for those address ranges for which geographic coordinates are available.

We will complete the processing of the data by Friday, February 28. At that time, we will be able to provide information regarding our costs for this process.

I apologize for the delays.

If you have further questions, contact me at 901-681-4614 or 800-331-5746.

Sincerely,

Michael Garner

If you have further questions, contact me at 1-800-331-5746.
